

Aykos Hydro HLP ISO VG 68

HLP - Hydraulic oil to DIN 51524, Part 2

Product description and properties

Aykos Hydro HLP ISO VG 68 is a hydraulic oil based on selected mineral oil raffinates. In combination with the latest generation of additives, it offers properties that not only fulfil the requirements of DIN 51 524 Part 2, but also exceed them.

Aykos Hydro HLP ISO VG 68 provides:

- Very good wear protection and high-pressure resistance
- Outstanding thermal stability and oxidation resistance
- Effective corrosion protection for maximum component safety
- Good compatibility with material coatings and sealing materials
- Easy and unproblematic filterability

Application

Aykos Hydro HLP ISO VG 68 is a hydraulic oil that is used in mobile and stationary hydraulic systems such as construction machinery, vehicles, machine tools or presses. It can also be used to lubricate low load rolling and plain bearings as well as gearboxes, provided this is authorised by the manufacturers of the units.
